

Building High-Performing Teams and Overcoming Personal Constraints™

Great performance does not happen by accident; leaders make it happen. Successful leaders know how to create positive relationships and productive cultures that lead to strong results. That is what Leadership Blueprint is all about.

Leadership Blueprint helps organizations cultivate true leadership potential at all levels to meet aspiring goals. In this three-day learning experience, participants quickly discover that relationships are at the core of performance, that real trust and respect are essential in any organization seeking to grow and improve. At Leadership Blueprint training, campus and district administrators learn and practice specific skills that make clear, candid communication possible. They learn to use these skills in their own relationships and to model and apply them on the job.

Leadership Blueprint is a dynamic, skill-driven, participatory experience, not a theoretical or motivational lecture. Leaders learn and practice skills they will use and model on a daily basis.

Leadership Blueprint is intended for leaders at all levels of an organization - people who are responsible for getting things done through peers and colleagues. The ideal scenario involves as many top-level leaders as possible.

Each participant will receive a copy of our New York Times and USA Today best selling book, *The Flip Side: Break Free of the Behaviors That Hold You Back*.

Participants will learn to:

- Connect with peers and colleagues toward common goals
- Open lines of communication to give and receive feedback effectively
- Use the EXCEL™ Model during interpersonal interactions and meetings
- Build high-performing, self-managing teams
- Develop specific skills and techniques for conflict resolution
- Uncover and overcome personal constraints
- Identify self-limiting behavioral patterns and tendencies
- Develop TrAction Plan™ to remove constraints and capitalize on strengths
- Enhance self-awareness through 360° feedback

Effective leadership demands an intentional balance of people and system skills. Leaders are encouraged to also attend Organization Blueprint, which focuses on system skills, within 6-12 months.
